TWO TO FOUR WEEKS BEFORE MOVING

Water, Sewer, Trash and Recycling

- Identify the correct utility provider for your specific address.
- Submit the appropriate service application.
- Pay any required deposit or connection fee.
- Schedule service to begin no later than your move-in date.
- Save your account number and confirmation.
- Confirm your trash and recycling collection days.
- Ask where carts should be placed and stored.
- Review bulk-waste and brush-collection rules.

The City of Hutto Utility Billing Office handles water, wastewater and residential garbage services for many addresses. However, certain neighborhoods receive some or all services from other providers, including Manville Water Supply Corporation or Jonah Special Utility District.

Check the provider before applying, your Hutto mailing address does not automatically tell you who controls the faucet.

Find Water Companies in Hutto, TX

For the most part, no matter where you move to in Texas, a local water provider or city water will be available.

1. **City of Hutto Water Utility:** The primary provider of water services to residents and businesses in Hutto.
2. **SouthWest Water Company:** Provides water and wastewater services in some areas around Hutto.
3. **Jonah Water Special Utility District:** Serves parts of Williamson County, including areas around Hutto.
4. **Manville Water Supply Corporation:** Supplies water to rural areas around Hutto.

For the most accurate and up-to-date information, you might want to contact the City of Hutto or visit their official website.

Traditionally, you will find the charges for sewer and trash on your water bill as separate line items.

Electricity

- Ask the property owner, landlord or builder which utility serves the address.
- Determine whether you can select a retail electricity plan.
- Compare the total rate, contract length and termination fee.
- Read the Electricity Facts Label before enrolling.
- Schedule electricity to begin before move-in.
- Save the provider's emergency and outage information.

Do not select a plan based only on the advertised cents-per-kilowatt-hour number. Review the full pricing structure, minimum-use provisions and contract terms.

PowertoChoose.org is a great website for comparing multiple electric providers that service in unregulated areas. Here are the most popular electric providers for those areas.

The City accepts requests for new and transferred residential service and can be contacted through its official connection page. **Connect City of Hutto utility service**

- Ask whether equipment must be purchased or returned.
- Update billing addresses for mobile-phone accounts.
- Download account apps before moving day.

- Gather proof of ownership and prior registration.
- Complete the required Texas application.
- Visit the appropriate county tax office.
- Register each vehicle within the required period.
